

Sarwar Ahmed

Senior Full-Stack Developer (Laravel • Node.js • React)

Email: sagor.picotech@gmail.com | Phone: +880 1883 998671

Location: Bangladesh | Open to Remote, USA & UK Opportunities

Professional Summary

Senior Full-Stack Developer with 4+ years of professional experience designing, developing, and maintaining scalable, secure, and high-performance web applications. Strong expertise in Laravel (PHP), Node.js, and React.js, with a proven track record of delivering production-ready solutions for international clients and US-based companies. Highly skilled in backend architecture, RESTful API development, database optimization, and system performance tuning. Known for ownership, clean code practices, and effective collaboration with cross-functional and remote teams.

Core Technical Skills

- **Backend:** Laravel (PHP), Node.js, RESTful APIs, Authentication & Authorization, Payment Gateway Integration
- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive UI Development
- **Databases:** MySQL, PostgreSQL, Database Design, Query Optimization, Data Integrity
- **Architecture:** MVC, API-First Design, Scalable System Design, Performance Optimization, Security Best Practices
- **Tools:** Git, Version Control, Deployment & Maintenance, Debugging, Third-Party API Integration

Professional Experience

Senior Software Developer – IT HERO (United States)

February 2019 – Present

- Led full-stack development using Laravel, Node.js, and React.js for US-based clients.
- Designed scalable backend architectures and RESTful APIs supporting business workflows.
- Optimized database queries and backend processes to improve performance and reliability.
- Collaborated with product managers, designers, and QA teams to deliver features on schedule.
- Owned code quality, security improvements, and long-term system maintainability.

Software Developer – 3QRT

December 2017 – December 2021

- Developed and maintained production web applications using Laravel and JavaScript.
- Integrated third-party APIs, payment systems, and external services.
- Refactored legacy codebases to improve scalability, readability, and performance.
- Worked on backend-heavy features involving complex business logic and databases.

Full-Stack Developer (Freelance) – Rangpur Division, Bangladesh

June 2016 – January 2021

- Delivered end-to-end web solutions for local and international clients.
- Designed responsive user interfaces and robust backend systems.
- Managed full project lifecycles from requirements to deployment and maintenance.
- Communicated directly with clients to ensure clarity and long-term satisfaction.

Education

Bachelor of Computer Science

Higher Colleges of Technology (2017 – 2020)

Volunteering & Leadership

Senior Developer – Tech-Expert (May 2020 – March 2022)

Mentored junior developers and contributed to improving development standards and best practices.

Additional Strengths

- Strong problem-solving and analytical skills
- Excellent communication in remote and multicultural teams
- High ownership mindset with focus on business impact
- Comfortable working independently or leading development efforts
